

Omron robotic solutions

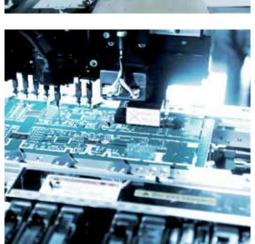

Complete automation expertise

Integrated robotics solution

Flexible manufacturing enabled by a seamless integration of robots and machine control

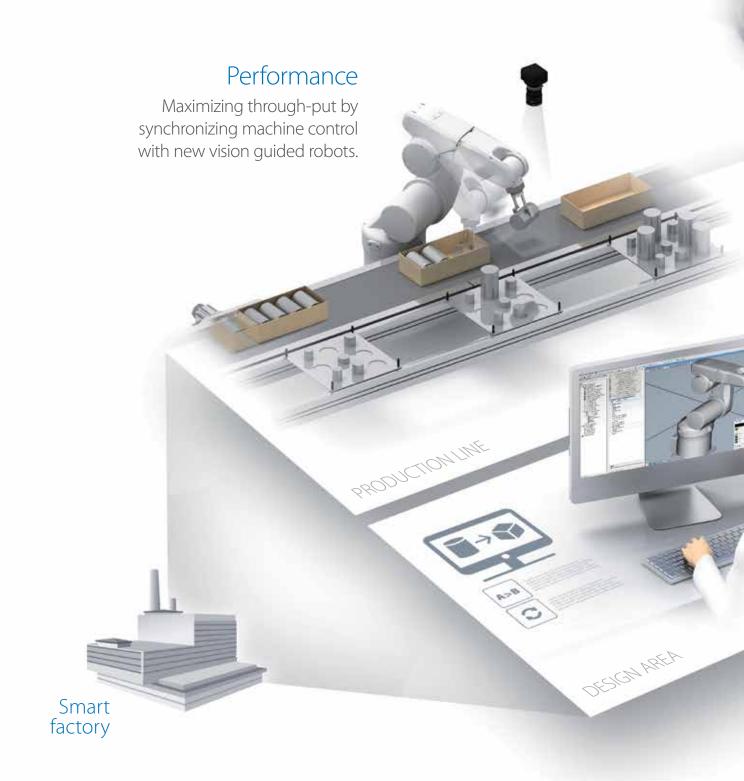

Omron's unique combination of software and control architecture addresses factory automation challenges, from producing a high volume high variety mix of products to short product lifecycles that require rapid production line changes.

Fully integrated control, software architecture and development environment meet current and future needs for process design, flexible operation and predictable maintenance. The flexibility and agility of our solutions is ideal for industries such as Food and Beverage, Automotive and Electronics.

- Rapid changeover with easy to use software that automatically generates code.
- Application specific solutions for packaging and assembly operations.

Robotic solutions for your most demanding applications

Over 200,000 products available

Control

- Machine controller, HMI and I/O
- Direct database connection for IIoT applications

Robots

- Parallel, SCARA and articulated robots
- Easy to use software to automatically generate code
- ePLC program the robot using common PLC language

Vision and measurement

- Quality control and inspection
- Product position and orientation detection for pick and place applications

Motion

- Rotary and linear servo motors
- Frequency inverters

Safety

- Complete safety lineup
- Light curtains, laser scanners, e-stop, door switches, safety mats and programmable safety controllers

Sensing

 Photoelectric, inductive, rotary encoder, mark and color, fiber optic and mechanical sensors

Global collaborative network

Machine automation and robotics expertise provided by your global partner

40 Countries
150 Locations
3,000 Application Engineers

Give us a call. Send us your sample.

Our knowledgeable experts are prepared to support your application.

Simulations

Testing with real products

Real cycle time analysis

Let us help you with all aspects of your most demanding applications and provide a complete solution. Robotics, vision, motion and safety functions are simulated and tested in our global robotics and automation centers. We are ready to support you and all of your automation needs.

Robot lineup

Industry segment				Parallel robots	
Food and Beverage	Digital	Automotive	Application	Hornet 565	Quattro 650/800
			Primary packing	•	•

Authorized Distributor:

Controllers & I/O

- Machine Automation Controllers (MAC) Motion Controllers
- Programmable Logic Controllers (PLC) Temperature Controllers Remote I/O

Robotics

• Industrial Robots • Mobile Robots

Operator Interfaces

• Human Machine Interface (HMI)

Motion & Drives

- Machine Automation Controllers (MAC) Motion Controllers Servo Systems
- Frequency Inverters

Vision, Measurement & Identification

• Vision Sensors & Systems • Measurement Sensors • Auto Identification Systems

Sensina

- Photoelectric Sensors Fiber-Optic Sensors Proximity Sensors
- Rotary Encoders Ultrasonic Sensors

Safety

- Safety Light Curtains Safety Laser Scanners Programmable Safety Systems
- Safety Mats and Edges Safety Door Switches Emergency Stop Devices
- Safety Switches & Operator Controls Safety Monitoring/Force-guided Relays

Control Components

- Power Supplies Timers Counters Programmable Relays
- Digital Panel Meters Monitoring Products

Switches & Relays

- Limit Switches Pushbutton Switches Electromechanical Relays
- Solid State Relays

Software

• Programming & Configuration • Runtime
